

Scope

Non-CO₂ greenhouse gases, including methane (CH₄), nitrous oxide (N₂O), fluorocarbons (CFC's, HFC's, SF₆, etc.), black carbon, aerosols, tropospheric ozone (O₃) precursors and other compounds.

Seventh International Symposium on Non-CO₂ Greenhouse Gases (NCGG7)

Innovations for a Sustainable Future

First Announcement and Call for Papers

Casa 400, Amsterdam, The Netherlands

November 5 - November 7, 2014

Submission of papers and session proposals

Deadline for abstracts (250 words): February 1st, 2014.

Notice on acceptance: April 1st, 2014.

Deadline papers: 15 September 2014.

Email your abstracts to office@ncgg.info.

Publications of papers

All papers that are submitted before 15 September 2014 will be available for NCGG7 participants in digital form. A selection of papers will be published in special issues of one or more peer reviewed international journals.

Call for papers and sessions

We invite submission of papers and sessions with respect to four themes.

Theme 1 – Innovation and Integration.

We seek for innovation and integration of knowledge on sources of non-CO₂ greenhouse gases, their effects and strategies to reduce these effects. We particularly welcome contributions from the science-policy interface, and on corporate responsibility.

Theme 2 - Sources, Sinks and Inventories.

This theme focuses on innovations in emissions monitoring and reporting and verification of emission data.

Theme 3 - Atmospheric Processes.

This theme focuses on the physics and chemistry of atmospheric processes, including monitoring of concentrations, and relations between greenhouse gases and other air pollutants.

Theme 4 - Policy Implementation.

This focuses on emission reduction technologies, policy options and policy implementation. Contributions on technological issues and industries' perspectives are welcomed, as well as on the realization of policies.

Organized by the Netherlands Association of Environmental Professionals (VVM)

Organizing Committee

Carolien Kroeze, Wageningen University / Open University
(NCGG7 Coordinator)
Rachel Heijne, VVM
Arjan Hensen, ECN
Marianne Koedoot, VVM
Tinus Pulles, VVM
Sybil Seitzinger, IGBP

André Van Amstel, Wageningen University
Folkert Van der Molen, DHV
Peter Van Velthoven, KNMI
Herman Walthaus, Netherlands Ministry of Infrastructure and Environment
Mathieu Dumont, AgentschapNL

Conference Committee (provisional)

Kornelis Blok, Utrecht University (NL)
Philippe Ciais, LSCE (FR)
Harry Clark, Agricultural Greenhouse Gas Research Centre (NZ)
Cecile De Klein, AgResearch (NZ)
Frank Dentener, Joint Research Centre, European Commission, Ispra (IT)
Han Dolman, VU University (NL)
Thor Endre, ABB AS (NO)
Pamela Franklin, US-EPA (US)
Annette Freibauer (NL)
Jan Fuglestad, CICERO (NO)
Joyeeta Gupta, VU University Amsterdam (NL)
Jochen Harnisch, KfW Development Bank (DE)
Leen Hordijk (NL)
Bill Irving, US-EPA (US)
Zig Klimont, IIASA (AT)
Maarten Krol, Wageningen University (NL)
Rik Leemans, Wageningen University (NL)
Adrian Leip, Joint Research Centre, European Commission, Ispra (IT)

Pieter Levelt, KNMI (NL)
Michaela Maione, Università degli Studi Carlo Bo (IT)
Mack McFarland, Dupont Fluoroproducts (US)
Javier Pérez Ramírez, ETH (CH)
Ludwig Ries, Federal Environment Agency of Germany (DE)
Thomas Röckmann, Utrecht University (NL)
Dale Rothman, Pardee Center for International Futures (US)
Martin Schultz, Forschungszentrum Jülich (DE)
Ute Skiba, Centre for Ecology and Hydrology (GB)
Rob Sturgiss, Department of Climate Change (AU)
Harry Thewissen, NXP Semiconductors (NL)
Han Van Dop, Institute for Marine and Atmospheric Research (NL)
Peter van Velthoven, KNMI (NL)
Theun Vellinga, Wageningen UR (NL)
Jawjit Warit, Rajamangala University of Technology Srivijaya (TH)
Budi Widianarko, UNIKA (ID)
Wilfried Winniwarer, IIASA (AT)
