1. Executive Summary

A verbal report on networking activities was provided to the 4th General Assembly meeting in Budapest, September 2014 and discussion of the development of the community and ways forward continued throughout the week of the meeting.

Topics mentioned/highlighted included:

- The improved collaboration between the nitrogen and ozone scientific communities due to the combined work on the project.
- Noting that the research area would benefit from the continuation of the integration of these two communities.
- Explaining the role, background and experience of Stakeholder Advisory Board members who attended the meeting.
- Links with the UNECE Air Convention, through the Task Force on Reactive Nitrogen the ICP Vegetation Task Force and EMEP communities.
- The links to planned future projects, such as the 'International Nitrogen Management System', a 'Targeted Research' project, funded by the Global Environment Facility, through the United Nations Environment Programme.
- Involvement of the Project Co-ordinator in the 'Foresight Expert Panel on the Junction of Health Environment and Bioeconomy' of the European Commission.
- Information on the open science conference which accompanied the annual meeting, allowing the ECLAIRE community to connect with the wider research field.

Further information on the activities described above can be found in section 2.29 of the second periodic report (WP24 – Networking and dissemination) and in the dissemination items added to the Participant Portal.
