

# WP 21: Standards and Data Management

Clare Howard

# éclairaire

Effects of climate change on air pollution impacts  
and response strategies for European ecosystems

# Overview and Structure

- Project is an integration of many strands
  - Measurements/Data Collection
  - Parameterisations/process modelling
  - Modelling on a range of scales
  - How do we bring this all together...?
- WP 21 Standards and Data Management
  - Task 21.1: Harmonization of scenarios *Wilfried Winiwarter*
  - Task 21.2: Common measurement Protocols *Christof Ammann*
  - Task 21.3: Model protocols and uncertainty *Clare Howard*
  - Task 21.4: Data quality & database management *Sue Owen*
